Drug endangered children are those children who suffer physical or psychological harm or neglect resulting from exposure to illegal drugs, to persons under the influence of illegal drugs, or to dangerous environments where drugs are being manufactured or chemicals used to make drugs are accessible. These harms may include: injury from explosion, fire or exposure to toxic chemicals found at clandestine lab sites; physical abuse; sexual abuse; medical neglect and; lack of basic care including failure to provide meals, sanitary and safe living conditions or schooling. Drug endangered children are part of a very large population of children whose lives have been seriously and negatively impacted by dangerous drugs.
